MEMORANDUM FOR SEE DISTRIBUTION

Subject: Technical Transportation of Hazardous Material (AMMO 64)

1. The Directorate of Logistics is sponsoring Technical Transportation of Hazardous Material Certification (AMMO 64) course that will be conducted by the Mobile Training Team (MTT) from the Professional Education Center (PEC), North Little Rock, Arkansas.
2. The class, date and suspense, with location are as follows:
 - a. Transportation of Hazardous Material (2 week – Certification)
 - (1) This course will be conducted at JFTB, Los Alamitos, CA., Classroom 20-31 Oct 2003. The travel day is 19 October, 2003 and the reporting time is 0800 on the first day of instruction. Class size is 25 students. There are 25 reserved seats for California. Other states have also been invited to attend.
 - (2) The course is designed for personnel who are required to certify HAZMAT shipments. It meets the DOD requirement for training personnel who sign the certification statement on HAZMAT by air, motor, rail, and water. Included are the roles, missions, and requirements for commercial carrier, national, state, and local regulations. Requirements for storage (incident to transportation), handling, packaging, marking, labeling, and placarding of HAZMAT, and various HAZMAT warning systems.
 - (3) Students will be trained in the use of applicable Codes of Federal Regulation; Air Force Joint Manual 24-204; International Civil Aviation Organization and International Air Transport Association Dangerous Goods Regulations and International Maritime Organization Dangerous Goods Code requirements for documentation, forms, labeling, marking, placarding, and inspecting.
 - (4) This course is extremely technical and requires at least average reading ability. Students must have basic math skills and bring a silent, four-function, hand-held calculator. "Homework" is assigned during the course, and students should be prepared to devote study time outside of the classroom during this course. Three examinations are given during the course.
